

Thank you for purchasing a Shakespeare antenna product. Customer comments are welcome. Before installing, please study the diagram and check parts supplied against those listed.

**IMPORTANT! Please read all instructions before installing.**

The Style 5220 is a Galaxy® Series Loran C marine antenna of 8' (2.4 m) overall length in one section with a stainless steel ferrule having Loran standard 3/8"-24 thread.

**Tools required: Crescent wrench or 1/2" open-end wrench.**

### Installation Instructions

Choose a mounting location that is as high as possible, as free as possible from obstructions, and as far as possible from other antennas and strong sources of RF.

Follow the installation instructions provided with your Loran C receiver. The Style 5220 antenna will thread directly into most manufacturers' coupler units.

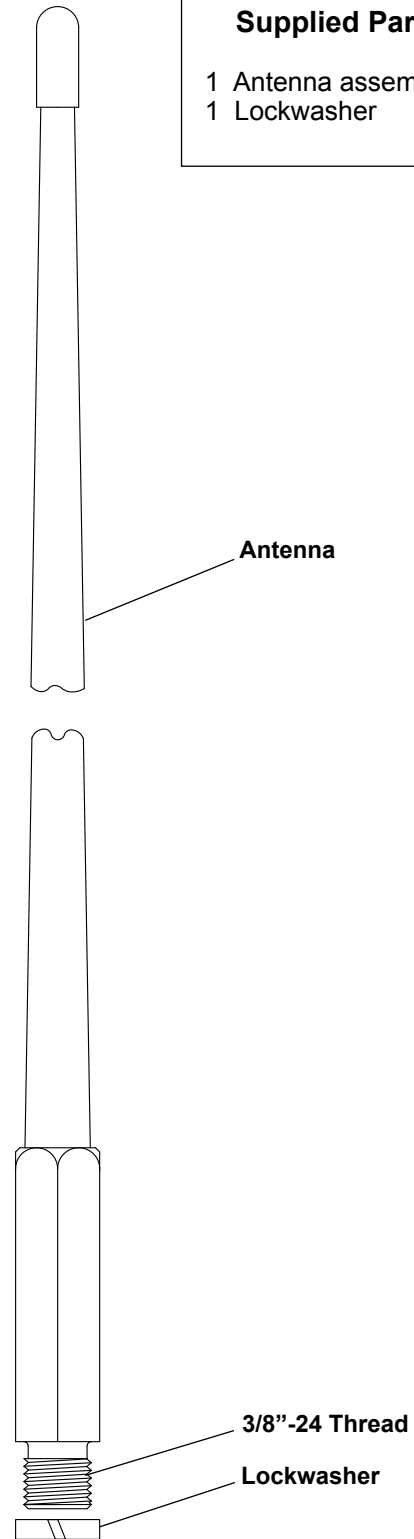

### Cleaning Instructions

To clean the extension mast, use mild dishwashing liquid (one that is not harsh to the hands and *without* ammonia) in lukewarm water.

**WARNING:** Do not let paint solvents, cleaning solvents, or adhesive caulking come in contact with the antenna. Chemicals in these materials might destroy the finish.

#### Supplied Parts

- 1 Antenna assembly
- 1 Lockwasher
